

Abstract Factory

All things you should know about Abstract Factory

What is Abstract Factory?

It belongs to the creational
category.

Known as kit.

Provides an interface for
creating families
of related objects.

Problem

Assume, we have two styles (PM, Motif) and they have a scrollbar, window, buttons, and so on. We need an approach that creates those and switches between two styles. How???

Solution

Abstract Factory

Shirin Monzavi

Structure

Applicability

A system should be independent of how its products are created.

A system should be configured with one of multiple families of products.

A family of related product objects is designed to be used together.

You want to provide a class library of products and want to reveal just their interfaces.
